

Project-Omega-Watch: P.O.W.

Tim LaRou
Michael Nguyen
Kyle Kunkel

Project Proposal

Basically Bootstrap + Pokemon, Project-Omega-Watch will generate themes and web pages based on pokemon hex color schemes. From Bulbasaur Buttons to Charmander CSS, users login to a variety of choices where they can download a full template or just grab some snazzy button code.

APIs

PokeApi <https://github.com/PokeAPI/pokeapi>

Gets pokemon data

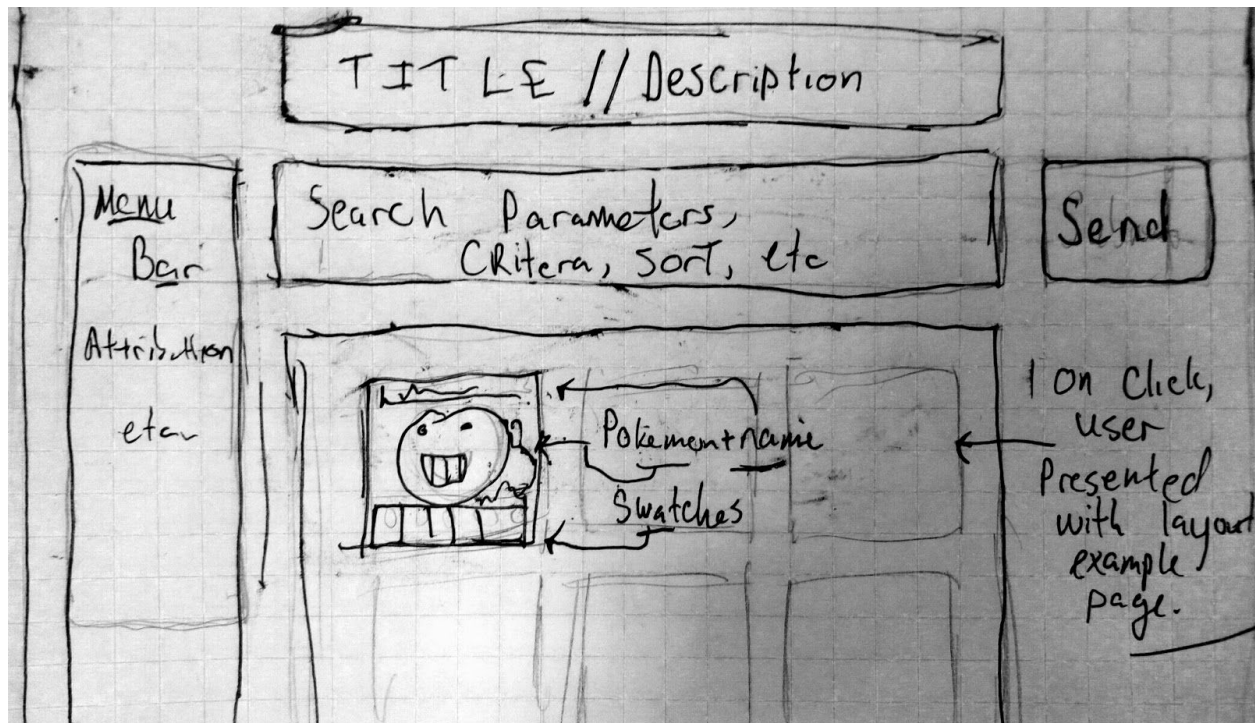

FireBase <https://firebase.google.com/docs/reference/>

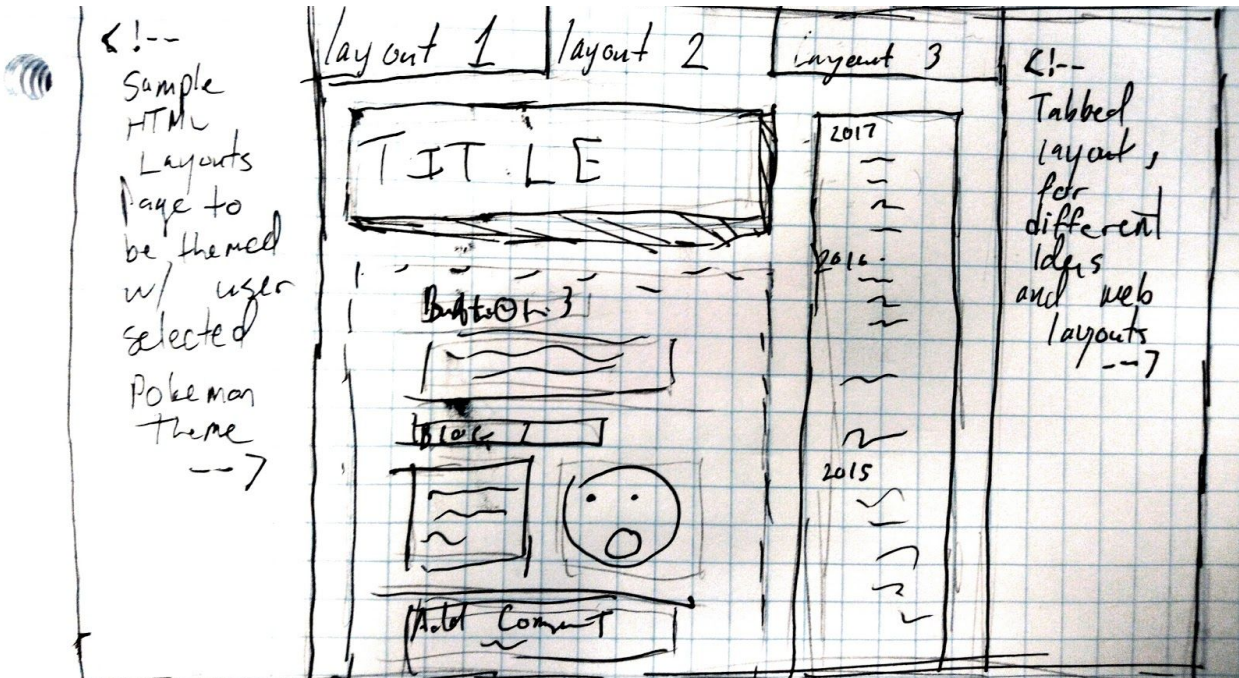

Login Authentication

+----- **That Extra Tech** -----+

Vibrant Js <http://jariz.github.io/vibrant.js/>

Gets hex colors

WBS

Member	Task	Level
	Id & Class Naming Conventions	1
